Projects

Better city resolution | **Project**

- Developed a platform dedicated to improving urban life by enabling citizen to report issues, and track improvement. Mysql for database collection and html, css, JavaScript for the user interface.
- **Integrated a real time voting and priority system** so users can upvote issues, and the platform dynamically highlights the most urgent problems.

Runfinity| **Project**

- Runfinity helps runners track their progress, set goals, and stay motivated with real-times stats and challenges, track progress and push our limits.   .
- Integrate live tracking and leaderboard so users can see their performance improve in real-time and compete with their friends.

Portfolio| **Project**

- A dynamic portfolio showcasing my skills and projects, and experience as a full- stack developer built with React and JavaScript and tailwind css.
- Integrated with project cards, animated skills, and a live contact form. Visitor can explore my work, filter projects by technology, and reach out directly through the interactive contact form.

Education

Haridwar University   September2023 – June 2027

Bachelor of Technology
Computer Science and Engineering |CGPA :6.8

Sahid Shakti Nath Mahto Smarak School, Sijua|Schooling

Class 10th: 78% | 2020

CLASS XII: 72.2% |2022

Certifications and Achievements

- Mastering JavaScript Fundamentals on Geekster   June 2024
- ESG Job Simulation on Forage-TCS| **Link**   January 2025
- Data Analytics and Visualization Job Simulation on Forage - Accenture | **Link**   January 2025
